PROFILE

I am currently pursuing a degree in Software Engineering, actively seeking opportunities to enhance my skills and tackle challenges that contribute to the development of my abilities. As a dedicated problem solver, I am always exploring ways to make a positive impact and contribute to a better world.

WORK EXPERIENCE

Assistant Accountant | 7M IDEAS

July - 2023

Participated in deploying the COMERCIAL PRO accounting software at a company. Contributed to the smooth transition from the previous system to the new one, incorporating customizations to align with client preferences and fulfill company requirements. Proficiently utilized SQL Server queries and conducted comprehensive training sessions to ensure the effective utilization of the new software.
